

Compact, light, high-quality scanning for mobile and confined space applications

Pentax DSmobile USB ultra-portable **SCANNER** is everything you expect from a desktop scanner in a small, lightweight, durable, highly mobile design. Whether you're on the job or just on the go, DSmobile USB multifunction capabilities enable faster and easier document and image scanning, editing and instant transmission via email, fax or the Web.

WEIGHING 12 OUNCES (340g) and measuring just 11 inches (280mm) long, the DSmobile USB is ideal in the most confined workspaces, be it in the office, on the plane or atop the dashboard. Simplified sheet-fed design makes scanning from business card size to legal paper size one-step easy. All operational power is drawn directly from a laptop, so there's no bulky, external power adapter. And the breakthrough design consumes less power (0.2 W on stand-by mode and a maximum of 2.0 W when operating), so scanning is possible even with battery-powered laptops.

The Portable Scanner Designed for Mobile Computing

The advanced **CONTACT IMAGE SCANNER** (CIS) Optical Module operates with fewer moving parts than the traditional Charge Coupled Device (CCD) Optical Module, substantially reducing the chances of a mechanical breakdown. And the double shell internal design double-protects internal components against sudden impacts.

DSmobile USB supports Microsoft Windows® 98, Me, 2000 or XP on any PC that has a USB port and accompanying software to access USB services. All components are backed by a standard one-year parts and labor warranty. And technical **SUPPORT IS FREE** for the life of the product.

Scan and transmit high-quality images and documents at anytime, from anywhere.

- DSmobile USB offers all these benefits in one amazing portable scanner:
- Scans, edits and transmits documents and images via email, fax or the Web.
 - Only 12 ounces (340g) and measuring just 11 inches (280mm) in length
 - User-friendly sheet-fed design works with business card size to 8.5" x 14" paper size.
 - Runs on minimal power drawn directly from laptop, no external power adapter.
 - Durable double shell design and less internal moving parts reduce maintenance.
 - Complete powerful scanning software package provided with purchase
 - One-year parts and labor warranty and free technical support

Scan and transmit high-quality images and documents at anytime, from anywhere.

Scanner Specifications

Interface

- USB (Universal Serial Bus)

Image Sensor

- CMOS CIS (Contact Image sensor)

Resolution

- Hardware optical 300 dpi
- Software interpolated 9600 dpi

Scanning Modes

- 36-bit internally, outputs 24-bit true color
- 8-bit gray scale
- 1-bit black and white (bi-level)

Scan Area

- Maximum 8.5" x 14"
(216 mm x 356 mm)

Scan Speed

- 12ms/line color
- 3ms/line B/W

Scanner Weight

- 12 oz. (340g)

Dimensions

- 1.6" x 1.9" x 11"
(40.6 mm x 48.3 mm x 279.4 mm)

Cable Length

- 35" (90 cm)

Power Consumption

- 0.01 W Sleep Mode
- 0.2 W Stand by
- 2.0 W During scan

Paper Thickness

- 0.1mm - 0.66 mm

Paper Sensor

- Activation and Deactivation

Software on CD Rom

- Presto! PageManager 6.0
- TWAIN Driver

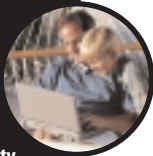

Computing System Requirements

- Pentium 100MHz or higher processor
- 32 MB RAM or above
- VGA or Super VGA
- Windows® 98, Me, 2000 or XP supporting USB function
- 50 MB free hard disk space or more
- An available USB port
- CD-ROM
